

POP UP CLOSET FLANGE

The Pop Up Closet Flange features a pop up test cap that can hold up to 5 floors of pressure and is still quickly and easily removed while not being able to fall down the drain. The test cap is below the top surface of the flange, preventing damage at the work site. It also comes with optional patented pending stainless steel reinforcing inserts to give you the strength and rigidity of a metal closet flange with the corrosion resistance of a plastic flange.

- Fits both 3" and 4" schedule 40 piping
- Test Version holds up to 5 floors of pressure
- Patented easy no hassle pop up test cap feature
- One of the strongest polymer flanges on the market
